

To Whom It May Concern,

Our daughter has always greatly enjoyed playing for Coach Jeff. I think because Jeff loves soccer and fitness in general so much, the girls see his passion, and absorb at least some of it. His patient approach to teaching the game makes all the learning and hard work really fun, and that has kept my daughter very interested in continuing to play each of the past several years. From the passionate pre-game cheers to the post-game snacks, Jeff keeps the girls focused, motivated and happy. He is always careful, deliberate and positive in his communications with the girls, because he knows how sensitive girls can be. He is always very inclusive and fair with respect to playing time.

As parents, Jeff's communication skills have been a tremendous help for us in managing our schedules. His timely and detailed pre-game emails that include directions to each game have definitely saved us a lot of time and research effort. He keeps a good balance between soccer time and family time, and is understanding when it comes to managing scheduling conflicts. Jeff has made it known that he is always available to meet with us.

Jeff is a great ambassador for the Greene County Cosmos Organization, and both have been a great fit for us as a family.

Joe and Janice Gordon
